Professional Summary

AI Prompt Engineer with strong skills in designing, testing, and optimizing AI prompts for various applications. Proven ability to enhance system performance through precise language and structured logic. Dedicated to driving innovation in AI technologies.

Work Experience

AI Prompt Engineer

Thynk Unlimited

June 2023 – Present

- Designed and refined AI prompts to improve system accuracy and user experience.
- Developed prompt frameworks for different use cases across industries.
- Conducted performance testing and iterated based on feedback and analytics.

Junior AI Developer

Keithston and Partners

August 2021 – May 2023

- Assisted in developing natural language processing systems for enterprise applications.
- Conducted research on prompt engineering best practices to support team initiatives.
- Supported integration of AI solutions into client workflows.

Technical Skills

- Prompt design techniques
- AI model testing
- Natural language understanding
- Prompt optimization
- Algorithm basics
- AI ethics fundamentals

Languages

- English (Fluent)
- Mandarin (Basic)

Education

Bachelor of Science in Computer Science

University of Borcelle

Graduated: May 2021

Certifications

- AI Fundamentals Certificate
Completed 2022
- Natural Language Processing Certificate
Completed 2023
